

MANAGING CHANGES

Course duration: 2 days

Fee: Le1,000,000

Study method

The course is interactive and participants are actively engaged in the learning process. During the course, the trainer will act as facilitator, using interactive learning methods to help participants to share their experiences and learn through participation in activities such as group discussions, case studies, role-playing, and games. At the same time, participants are instructed to develop an action plan for applying their new skills and tools to actual challenges in life and at work.

Course overview

Sometimes managers resist change due to a lack of understanding about the nature of change and they passively react to change. They deal with change as it happens and are unaware of their responsibilities in initiating and actively leading change. This course gives managers the skills to plan for change and lead change successfully

Learning outcomes

After the course, participants will be able to:

- Describe the nature of change;
- Explain the role of managers in planning and implementing change;
- Explain how to plan for a change project;
- Explain how to run a persuasion campaign to implement a change project successfully;
- Practise skills and techniques that are essential in the implementation process
